MEDICARE BUY-IN UPDATE EDITS/ALERTS- 4500 THROUGH 4799

Overview

Below is a list of messages detailing the number, message title and directive to resolve errors or alerts.

4500

EW11 RECORD FROZEN - MEDICARE HIC-NO DIFFERENCES

ALERT

An EW11 transaction has linked two records identified as belonging to the same individual. There were differences in HIC-NO between the two records.

ACTION: Review both records to determine which record needs to have the HIC-NO changed and submit an update as needed.

4501

EW11 RECORD FROZEN - MEDICARE STATUS DIFFERENCES

ALERT

An EW11 transaction has linked two records identified as belonging to the same individual. There were differences in Medicare status between the two records. NOTE: Only the first month in which a difference was found is shown on the report.

ACTION: Review both records to determine which months on which record require a change in Medicare status. No new eligibility can be established on the frozen record for any month with a 999 eligibility status so no update of Medicare status is needed for those months. Initiate changes to Medicare status as needed.

4502

RECIPIENT IS MEDICARE ELIGIBLE PER BENDEX BUT NOT MEDS

URGENT

ACTION:

4506

NAME AND BIRTHDATE CHANGED ON BUY-IN RECIPIENT

URGENT

MEDICARE BUY-IN UPDATE EDITS/ALERTS- 4500 THROUGH 4799, Continued

4549 QMB ACCRETION SENT - 31XX PROCESS DATE OVER 3 MONTHS AGO ***ALERT***

ACTION:

4550 OUT-OF-STATE STATUS TOOK PRIORITY OVER MANUAL TRANSACTION ***ACTION***

If an out-of-state status update overlays a pending manual Buy-In transaction, an alert will be issued to the Buy-In Unit to determine whether they need to initiate another manual transaction. If county staff determine that a client identified as out-of-state is now residing in California, notify Buy-In staff to initiate a manual transaction to return to a normal Buy-In accretion status.

ACTION:

4551 NO PART A ACCRETION SENT - CHECK ELIGIBILITY STATUS FOR PART A ***ACTION***

ACTION:

4601 AZ AND FZ TRANSACTIONS CAN ONLY UPDATE FICTITIOUS RECORDS ***URGENT***

ACTION:

4603 CCS/GHPP CHANGE REPORTED – NOT CCS/GHPP PER MEDS ***ACTION***

This fatal error message indicates that a CCS/GHPP change transaction was submitted for a MEDS record that is not identified as known to CCS or GHPP.

ACTION:

If the client should be identified on MEDS as a CCS/GHPP client, then a GZ20 transaction will need to be submitted to identify the client as a CCS/GHPP client.

If a MEDS-ID change is needed, it must be submitted after the GZ20 has updated MEDS.

**MEDICARE BUY-IN UPDATE EDITS/ALERTS- 4500 THROUGH 4799,
Continued**

4604	<u>HEALTHY FAMILIES ELIGIBILITY CHANGE REPORTED</u>	<i>ACTION</i>
-------------	--	----------------------

This alert notifies CMS staff when Healthy Families eligibility is added or terminated for an active CCS/GHPP client.

ACTION:

CMS should re-evaluate the client to determine if they need to be moved into or out of aid code 9R.

4605	<u>CMS-NOTIFY CHANGED TO N – TRAN SOURCE DIF OR PRIOR DUAL</u>	<i>URGENT</i>
-------------	---	----------------------

This alert is created when the CMS Notification Indicator is changed to 'N' and either the source of the update is not the program that was previously identified in the indicator, or the client was previously identified as an active client of both CCS and GHPP.

ACTION:

CMS should verify that the "notify" indicator was not erroneously changed to 'N' when the client may be known to the other program and submit an update as needed.
